

DESCRIPTION OF COURSEWORK

Course Code	UCCD2323
Course Name	Front-End Web Development
Academic Session	2026/06
Assessment Title	Group Assignment (20%)

A. Introduction/Situation/Background Information

The ability to use modern HTML5 and application development is important in today's digital society. This group assignment aims to expose students to current HTML5 development and apply CSS3 knowledge and JavaScript skills. The assignment requires students to work in a team to study current HTML5 development based on a given case and apply CSS3 knowledge and JavaScript skills learned in the course to create a visually appealing report using Microsoft Word and develop a workable website.

B. Course Learning Outcomes (CLO) covered

At the end of this assessment, students are able to:

CLO 3 Apply emerging front-end web technologies in the design and development of web applications.

C. Academic Misconduct

1. Academic misconduct is a serious offense. It can be defined as any of the following:
 - i. **Plagiarism** is submitting or presenting someone else's work, words, ideas, data, or information as your own, intentionally or unintentionally. This includes incorporating published and unpublished material, whether in manuscript, printed, or electronic form, into your work without acknowledging the source (the person and the work).
 - ii. **Collusion** is two or more people collaborating on a piece of work (in part or whole) which is intended to be wholly individual and passed off as their own individual work.
 - iii. **Cheating** is an act of dishonesty or fraud to gain an unfair advantage in an assessment. This includes using or attempting to use or assisting another to use materials that are prohibited or inappropriate, commissioning work from a third party, and falsifying data.
2. All the assessments submitted must be the outcome of the student. Any form of academic misconduct is a serious offense that will be penalized by being given a zero mark for the entire assessment in question or part of the assessment in question. If there is more than one guilty

party, as in the case of collusion, both you and your collusion partner(s) will be subjected to the same penalty.

D. Instructions to Students

- With a **maximum of four (4) or a minimum of three (3)** members in a group from the **same bachelor's degree program and same practical class/slot**, you are required to use word-processing software (e.g. Microsoft Word) to create a visually appealing report and developing a workable website (HTML5, CSS 3, JavaScript, JQuery and Bootstrap) based on a given case.
- **Fill out the UCCD2323 Assignment Group Formation June 2026 Excel form** in the link given in the WBLE.
- All group members should work together to create the report and develop a workable website. The assignment mark for each group member will be determined by his/her contribution to the assignment.
- The group may use Google Docs or other collaboration tools to draft the report and keep track of members' contributions to the report editing.
- The record of discussions/document editing/meetings of the assignment should be kept. The lecturer may ask for the records if an investigation is needed for members' contributions, collaboration, or performance. (Do not need to submit.)
- **The group should attach a member's contribution sheet at the end of the assignment to list or briefly describe members' contributions or duties, and signed by all members.**
- Submit a soft copy of your report to Turnitin for similarity checking. The **Turnitin similarity** should be **below 20%**.
 - **Turnitin Class ID: 53657404**
 - **Enrolment Key: FEWD_JUNE26**

Assignment Submission:

- A Word file with (1) assignment cover page, (2) members' contribution sheet, (3) marking rubric, (4) table of contents, (5) report, and (6) full Turnitin report with percentage only.
- Save the report according to the **Submission Criteria**.
- Your group leader will represent the group to submit the assignment via the assignment submission link on the WBLE assignment page of this course.
- **Late submission will result in a deduction of 2 marks per day from the awarded mark.**
- **It is very important to follow the submission requirements/instructions to submit your work; otherwise, 5 marks will be deducted from the overall mark.** All members have the responsibility to check the correctness before submission.
- **Submission Date: 21 August 2026, Friday, Week 10 (5.00 pm).**

E. Evaluation Breakdown

The evaluation criteria for your final report, presentation, and website demo will be based on all of the following aspects:

No.	Component Title	Percentage (%)
1.	<u>Content of Final Report:</u> 1. Chapter 1 – Introduction (Define audience and set the goals) (G: 5 marks). • Provide the background study of the system (past and current trends), target audience, problem description, target audience and significance (describe the benefits of the system towards your user). 2. Chapter 2 – Literature Review (analysis existing website – minimum 3 websites) (G: 10 marks). • Compare the related existing systems, describe the advantages, disadvantages, and limitations, and provide recommendations for the system. Explain how your website would be better or different from the existing system. 3. Chapter 3 – Design (Wireframes, page mockup, site map) (G: 10 marks). 4. Chapter 4 – Evaluation (User manual with print screen) (G: 10 marks). 5. References and Appendix (IEEE format style) (G: 5 marks). 6. Overall report quality (G: 5 marks).	45
2.	<u>Presentation and Website Demo (**Do a video recording **):</u> 1. Use of various storage technologies such as cookies, local storage, and session storage (G: 15 marks). 2. Calling Restful API with jQuery and incorporating social media plugins (G: 10 marks). 3. Overall layout and appearance of the entire website (UI/UX) (G: 15 marks). 4. Clarity of voice (I: 5 marks). 5. Flow of presentation (I: 5 marks). 6. Handling Q&A (I: 5 marks).	55
	TOTAL	100

**** Please refer to the marking rubric for detailed marking criteria and mark allocation.**

**** G: Group Marks and I: Individual Marks.**

F. Task(s)

Target case:

1. Select any of the titles given below and develop a mobile-responsive website for it.
 - i. **AI & Innovation Club:** A website introducing Artificial Intelligence, machine learning projects, prompt engineering workshops, and innovation challenges.
 - ii. **Animation & Multimedia Club:** A website promoting animation projects, video editing tutorials, and multimedia productions.
 - iii. **E-Sports Club:** A website promoting gaming tournaments, team rankings, player profiles, and event schedules.
 - iv. **Green Technology Club:** A website promoting renewable energy, electric vehicles, smart cities, and sustainable technologies.
2. Each group member must create and contribute at least 2 web pages for the website. Therefore, **a group of 3 students will have at least 6 web pages, while a group with 4 students will have at least 8 web pages.**
3. **Sample Websites for references:**
 - a) **AI Society – Bennett University**
<https://www.ai-society.club/>
A university AI club website focused on artificial intelligence, hackathons, machine learning projects, workshops, mentoring, and open-source contributions. The website showcases club activities, achievements, and member development opportunities.
 - b) **AI Club**
<https://corp.aiclub.world/>
A beginner-friendly educational website that introduces artificial intelligence through projects, learning resources, coding activities, and interactive content designed for young learners.
 - c) **Dasein Animation and Digital Media Club**
<https://www.dasein.edu.my/student/clubs-society>
A creative club website that showcases student projects in animation, digital art, graphic design, photography, videography, and multimedia while promoting club activities, workshops, competitions, and member achievements.
 - d) **Curtin Games & Esports Club**
<https://curtingaming.com/>

A social gaming club that welcomes all types of gamers, including casual, competitive, tabletop, and console players. The website focuses on creating an inclusive gaming community rather than elite competition.

e) **Green Science and Technology Association Malaysia**

<https://gstam.org/>

A website that promotes environmental sustainability through green science, renewable energy, recycling, biotechnology, and eco-friendly innovations.

A. Final Report structure and format:

- Utilize Microsoft Word to create a visually appealing report with a basic structure (at least):
 - **Table of contents (use Microsoft table of contents).**
 - **Chapter 1: Introduction.**
 - **Chapter 2: Literature Review.**
 - **Chapter 3: Design.**
 - **Chapter 4: Evaluation.**
 - **References and Appendix.**
 - **Turnitin report with percentage only.**
- The report content should be organized with titles and subtitles, and formatted with appropriate font size and styles. The required Word Processing elements:
 - **The content body - 12 points font size, Times New Roman, 1.5 spacing, and justified.**
 - **Titles and subtitles - Minimum 12, maximum 24.**
 - **Insert header (group name) & footer and page numbers (except assignment cover page).**
 - **Compress images to reduce the file size.**
 - **Appropriate use of Bold and Italic styles.**
 - **1" margin at the top and bottom, 1" margins at the left and right.**
 - **Spell-checked for accuracy.**

B. Website structure and format:

- Mobile responsive.
- Attractive layout and design with proper colour schemes, graphics, animations, audio/video contents, interfaces, and menus.
- Apply various web development technologies such as HTML 5, CSS 3, JavaScript, jQuery, Bootstrap, etc.
- Use of various storage technologies such as cookies, local storage, and session storage.

C. Presentation structure and format:

- The **entire video presentation for each group must not exceed 25 minutes**. Students are **not allowed to accelerate or increase the playback speed** of the presentation video in order to reduce its duration.
- Every group member must present. **Introduce yourself clearly before you start the presentation.**
- **Every presentation slide must clearly indicate the name of the student presenting that particular slide.** This is to ensure that each member's contribution can be identified and assessed appropriately.
- Explain to the audience how the technologies such as cookies, local storage, and session storage have been implemented and used in your web pages.
- Inform the audience if any of the web pages that you are presenting call a Restful API and/or incorporate a social media plugin. Explain and show clearly how they are used and implemented.
- A **Question & Answer (Q&A) session must be included as the final part of the presentation.** During the Q&A session, the question being answered must be **displayed clearly on the slide** before or while the response is given.
- Each group member must ask at least 1 question to another member of the group in the Q&A session. Each group member must answer at least 1 question asked by another member of the group in the Q&A session.

➤ **Submission Criteria:**

1. Indicate the following on the front cover of the report:

- **The Group Name.**
- **Group leader.**
- **Individual student ID, student name, Course code, programme, and practical group (for all members of the group).**
- **Website URL.**
- **Main page of the website (give the URL link for your website, eg, <https://assignment.azurewebsites.net/index.html>).**
- **[Provide login ID and password if needed.]**

2. PowerPoint presentation slides (to be included in the report).

3. Upload the following to your Microsoft OneDrive and submit the shared link:

- **The report (PowerPoint presentation slides included in the report as an appendix).**
- **The complete website (source code) [Note: Must be compressed into a zip file.]**
- **A video recording of the presentation and website demo.**

4. Filename for report, zip file, and video presentation must follow the format:

- **CourseCode_GroupName (group name refers to what has been filled in the Excel sheet.) Eg. UCCD2323_P7G1.docx, UCCD2323_P7G1.zip, UCCD2323_P7G1.mp3**

MARKING RUBRICS

(Include the marksheet below after the member's contribution sheet of your report**)**

Student Details		1	2	3	4
Student ID					
Student Name					
Degree Programme					
Course Code					
Practical Group (for all members of the group)					
Group Name					
Website Title					
Website URL					
List out all the web pages created. (A group of 3 students will have at least 6 web pages, while a group with 4 students will have at least 8 web pages).					
		(example, index.html, about.html)	(example, features.html, contact.html)	(example, promotions.html)	(example, galleries.html)
REPORT (45%)					
Overall report quality [G]	5% (Scale x 1)				
Introduction [G]	5% (Scale x 1)				
Literature Review [G]	10% (Scale x 2)				
Design [G]	10% (Scale x 2)				
Evaluation [G]	10% (Scale x 2)				

References [G]	5% (Scale x 1)				
Website (40%)					
Use of cookies, local storage, session storage [G]	15% (Scale x 3)				
Calling Restful API with jQuery and incorporating social media plugins [G]	10% (Scale x 2)				
Overall layout and appearance of the website (UI/UX) [G]	15% (Scale x 3)				
Presentation (15%)					
Clarity of voice [I]	5% (Scale x 1)				
Flow of presentation [I]	5% (Scale x 1)				
Handling of Q&A [I]	5% (Scale x 1)				
Total (100%) [Note: Minus 5 marks if mark sheet not included after the cover page.]					

MARKING SCHEME

(Enter into the marksheet the scale value from 0 – 5 **)**

Scale (0-5)	Description
5	Excellent work produced. Evidence of in-depth study and critical thought.
4	Good work produced. Evidence of in-depth study or critical thought.
3	Average work produced. Evidence of some study or thought, although not extensively covered.
2	Below average work produced or work not supported by any study/basis.
1	Poor work performance or work not supported by any study/basis.
0	Not attempted.
